PRODUCT DATASHEET

TC 400W WINE COOLER

Wine cooler with glass door, which is primarily designed for a variety of catering facilities. The device is perfectly suited to the wine storage at temperature between 6 and 13 °C. The unit has a separate fan switch, so there are 2 ways to adjust the cooling. When the fan is switched on, the cooling is dynamic. When the fan is switched off, the cooling is static, so can be 7 °C difference between the temperature of the bottom and the upper shelf. In the lower part of the cooler at static cooling the temperature is 6 °C, in the upper part 13 °C, in the intermediate part the temperature is layered. Thus wine with different cooling need can be stored in the cooler at the same time. Exterior color of the cooler is dary grey, interior color is lighter grey, the door is stainless steel. Elasztopor foam and K4 glass minimaze the amount of the heat loss. The opening direction of the cooler is changeable. The cooler has 7 wooden shelves, the shelf load is 30 kg. Vertically placed blue LED provides the lighting of the cooled place. The switches - power switch, lighting switch, fan switch - can be switched independently. This cooler version is a tropic version, operates correctly at ambient temperature 15-30 °C.

PRODUCT DETAILS

Dimensions

External size (mm)	595x647x1856 (H)
Internal size (mm)	505x510x1555 (H)
Net volume (l)	367
Gross volume (l)	386
Net weight (kg)	99
Number of shelves (pcs)	7
Shelf size (mm)	480x432
Shelf payload (kg)	30

Technical specifications

Climate type	N
Temperature range (°C)	+6...+13
Thermostat	Digital
Refrigerant	R600a
Rated voltage (V)	230
Current (A)	1,1
Input power (W)	180
Energy consumption (W/24h)	1,18
Internal material/color	Plastic-coated sheet steel / grey
External material/color	Plastic-coated sheet steel / anthracite or wood
Type of lighting	double vertical LED
Type of cooling	static/dynamic

Capacity

0,75 l glass bottle 1 row (pcs)	6
---------------------------------	---

Accessories

Canopy	optional
